## Watkins Tony

As a sitting councillor in the Woodside Ward I am seeking your continued support in the upcoming local government election on the 16th of October.

I have lived in East Fremantle with my family for 35 years and appreciate the many characteristics that make East Fremantle a desirable place to live. I believe that active community engagement is a crucial part of being a councillor.

I also believe it is important to maintain and improve community infrastructure that supports not only the young families who live in our town but also the many older residents who wish to continue living in our community. I am conscious that decisions made by the council today will have an impact in the future for East Fremantle residents and the wider community.
