FOGO and General Waste

FOGO and Recycling

- Ensure bins are placed out by 6.00am on collection day
- Your Food Organics, Garden Organics (FOGO) bin is collected weekly
- Your Recycling and General Waste bins are collected on alternate fortnights
- Do not overfill your bins and ensure lids are firmly closed so items do not spill out

Let's go FOGO

The 3-bin Food Organics, Garden Organics (FOGO) system will provide you with more options for separating your household waste, with the aim of improving recovery rates, increasing diversion from landfill and reducing costs of processing material.

By collecting all your nutrient-rich food waste alongside garden waste in your new lime green lidded FOGO bin, we can generate a high-quality compost to use on farms, parks and gardens and avoid organic waste going to landfill, which produces harmful methane gas.

Even if you don't have a lot of food or garden waste, residents are encouraged to use your FOGO bin to ensure we can recover as much organic waste as possible. You can use your FOGO bin for things you can't put in your home compost bin, like bones, meat and seafood!
